

## **Mrs. Dr. habil. Kirsten Babilas - specialist in gynecology and obstetrics**

Mrs. Dr. habil. Kirsten Babilas studied psychology at the Catholic University of Leuven, Belgium, as well as human medicine at RWTH Aachen and at Tulane University, New Orleans, USA. She received her doctorate from the Department of Pediatric Cardiology at RWTH Aachen. After completing her specialist study at the Clinic for Gynecology and Obstetrics, St. Hedwig Clinic, and at the Gynecology and Obstetrics University Department of the Caritas Hospital St. Josef, Mrs. Babilas gained recognition in 2009 as a specialist in gynecology and obstetrics. Since 2013, Mrs. Babilas has been working as a specialist in gynecological clinic of Dr. habil. M. Dragon in Regensburg.

Mrs. Dr. Kirsten Babilas offers her own gynecological and obstetric consultation in the rooms of the SKIN CENTRE REGENSBURG (appointment). In addition, Mrs. Dr. Babilas also offers her gynecological expertise at the SKIN CENTRE REGENSBURG, thus allowing the integration of dermatology and gynecology. As a result, dermatoses localized in the genital area (e.g., vulvodinia, vulvovaginitis, eczema, psoriasis, infections) and also overlapping aspects of diseases (e.g., increased body hair, hair loss, acne vulgaris in women) can be fully diagnosed and treated. Another focal point is gynecological endocrinology with a focus on anti-aging medicine. Mrs. Babilas includes this expertise into the aesthetic consultation.

Mrs. Dr. Babilas is an active member of the German Society of Gynecology and Obstetrics, the German Society for Prevention and Anti-Aging Medicine and the German Society of Botulinum Toxin. In addition, Mrs. Babilas is a member of the ÄGGF e.V. (Public Association, Medical Society for Promotion of Women's Health). In this function, Mrs. Babilas visits the schools of the region to provide targeted medical work.
